PROFILE

Frontend Developer with 2 years of experience building product interfaces for real-time workflows. I work mainly with React, Next.js, TypeScript, Tailwind, Firebase, and Supabase, with a focus on clear dashboards, scheduling flows, tracking views, and operational UI that stays usable under latency or unstable connectivity.

EXPERIENCE

VideFace | Frontend Developer | 2025 - Present

- Build and improve frontend interfaces for admins, agents, and end users across scheduling and operational workflows.
- Improve real-time dashboard behavior with Realtime Database sync so assignment and status changes are visible without reloads.
- Work on feedback states, tenant-based behavior, and recovery flows so actions feel immediate and reliable in daily use.
- Contribute to monitoring and traceability tools that make administrative workflows easier to follow from the UI.

Tech: React, Firestore, Realtime Database, Tailwind CSS, Electron

Dragonfly | Frontend Developer | 2023 - 2025

- Built the mobile app interface for water-delivery logistics used by around 300 users across 7 trucks in daily operations.
- Implemented real-time views for driver location, route progress, order assignment, and delivery status.
- Designed delivery capture flows that stayed usable under weak signal and synchronized later when connectivity returned.
- Improved the client update path so tracking feedback felt fast during active field use.

Tech: React Native, Firebase, Realtime Database, Maps

SELECTED PROJECT

WhatsMyTask | Personal Project

- Designed a workflow that turns fragmented WhatsApp conversations into structured tasks.
- Reduced noisy AI calls by filtering low-value traffic before processing and grouping related messages into a shared context window.
- Built the dashboard and interaction model to inspect, understand, and adjust extraction behavior.

Tech: React, TypeScript, Express, Firebase, Cloud Firestore, Realtime Database, Gemini API, Zod

SKILLS

React, Next.js, Vite, TypeScript, Tailwind CSS, shadcn/ui, Zustand, Supabase, Firebase, Clerk, Prisma, Zod, Figma, Notion, Claude, GitHub Copilot

EDUCATION

Universidad Autonoma de Occidente | Multimedia Engineering background
